Hello (b) (6)

Earlier this year, you sent an e-mail to this EPA office providing comments on the TexCom proposed injection wells near Conroe, TX. I was assigned to prepare a reply to your inquiry, and, after that, you spoke to me on the phone a couple of times.

On those occasions you indicated that you would like to share with us, via e-mail, some information (transcripts perhaps) on testimony provided by a state witness at the contested case hearing in connection with predictions of pressure build up inside the reservoir that has been targeted for injection in the TexCom wells. I never received this information, and would like to know if you might still wish to share it, which I presume is available in electronic format. I believe it might be of help as we continue to monitor the progress of this permitting process as part of our oversight duties.

Any information you may provide in regard to this request will be greatly appreciated. I hope you have a nice week. Sincerely,

Jose Eduardo Torres
